

Hymns of the Saints

**a selection of hymns on compact disc from the hymnal of the
Reorganized Church of Jesus Christ of Latter Day Saints**

The Worship Office of the Reorganized CHURCH OF JESUS CHRIST of Latter Day Saints is happy to provide this compact disc set of the most often used hymns from the 1981 denominational hymnal *Hymns of the Saints*. Its primary purpose is to assist congregations who need accompaniment support for their hymn singing. Additionally, worship leaders, singers, organists, and especially piano students may wish to use this collection for instruction. From it may be gathered ideas as to possible tempos, voicing, and in some cases the arrangements of the hymns.

Jack Ergo, playing on the 1917 Steinway Piano located in the Auditorium Conference Chamber since the 1930's, brings his many years of service-playing experience and his devotion to the hymnody of the Christian faith to help you lead your worship experience.

This set contains 155 tunes recorded representing 223 hymn texts.

HOW TO USE THIS SET

This set is designed to be very versatile. It was recorded on CD because of the ease of indexing each hymn and the superior sound quality.

We suggest using a 5CD changer dedicated to this set and added to your sound system; however some portable "boom boxes" work very well. Remember your system is only as good as the quality and placement of the speakers. The Worship Office can give specific purchasing guidance and

prices you should (and should not) pay. The best source is *Consumer Reports*.

Pay close attention to the CD number (which of the 5 CD's your selected hymn is on) and the track number (the actual number you would enter using the keypad on the CD player). If you are using a single CD player, you can hit the "next" button, or on some units push the double triangle repeatedly until the desired number appears. The selected hymns are listed in numerical order, but because many hymn tunes appear several times the **CD and track number** are often not in order. Most CD players can pre-program the sequence of desired hymns for your particular service. The remote device can start and stop the player at the desired times.

Notations in **bold** refer to extra music or extra text. To exit the extra stanzas, please push the "fade" button or manually fade the volume down. Do not push the stop button as this is abrupt and interferes with the worship flow. You may wish to allow the extra music to continue and begin a prayer; use it as meditation, or to set up the next worship element.

© 1997 Reorganized Church of Jesus Christ of Latter Day Saints

INTRODUCTIONS!

Almost every hymn is introduced with first line-last line, a small break, and then full accompaniment. There are some exceptions which are notated. It is a good idea for the presider or song leader to review the hymn introduction so there is not an awkward moment within the worship experience.

Additionally you may wish to use the hymns for:

- prelude/offertory/postlude
- meditation
- communion serving
- soloist accompaniment tracks

Christmas, Passion, and Easter hymns are found mostly on CD 5 for your convenience.

The Worship Office Staff would like to join the many voices who observe that a total reliance on recorded music moves us away from a three-dimensional worship experience toward a two-dimensional experience. We must always remember that live voices and live instruments—just like our live testimonies, prayers, and preaching—most accurately reflect the Spirit in our midst, and are preferable.

Praise
